

PrestaNFT module User Guide – by Mediaterraneo Consulting

Hi there ! you’re probably reading this because you were directed here from an online shop who is using a PrestaNFT module of ours. This guide gives a quick overview of how you can Mint NFTs from the products you are purchasing on this shop.

Let’s say you want to purchase one of this collectible items, sold in the shop (Note that the price here is set to 0 for the sake of this demo. Normally you’ll have to pay the product as usual).

Demo Product Box
Produit de demonstration

0,00 €

1

Demo Card Dark
Produit de demonstration

0,00 €

1

Demo Card Steel
Produit de demonstration

0,00 €

1

Buy it through the usual process : put it in your basket, then order and pay.

Once purchased, you will see something like this in the product page.

The screenshot shows a product page for 'DEMO CARD DARK'. On the left is a colorful illustration of a character with a green and blue face, labeled 'ルガルガン Vmax' and 'PRESTANFT'. The price is listed as '0,00 € TTC'. Below the price is a quantity selector set to '1' and a button 'Ajouter au panier'. Social media icons for Facebook, Twitter, Google+, and Pinterest are present. A section titled 'MINTEZ VOTRE NFT POUR CE PRODUIT !' contains a purple coin icon and a link 'Connectez votre Metamask à la Polygon Testnet (Mumbai) et mintez votre NFT !'. Below this is a disclaimer in French: 'Décharge de responsabilité: les processus liés aux opérations que vous effectuez via votre Metamask sont en dehors de notre boutique en ligne. Nous déclinons toute responsabilité sur le bon fonctionnement de vos transactions.' At the bottom right, there are two buttons: 'Mint it now !' and 'read more'.

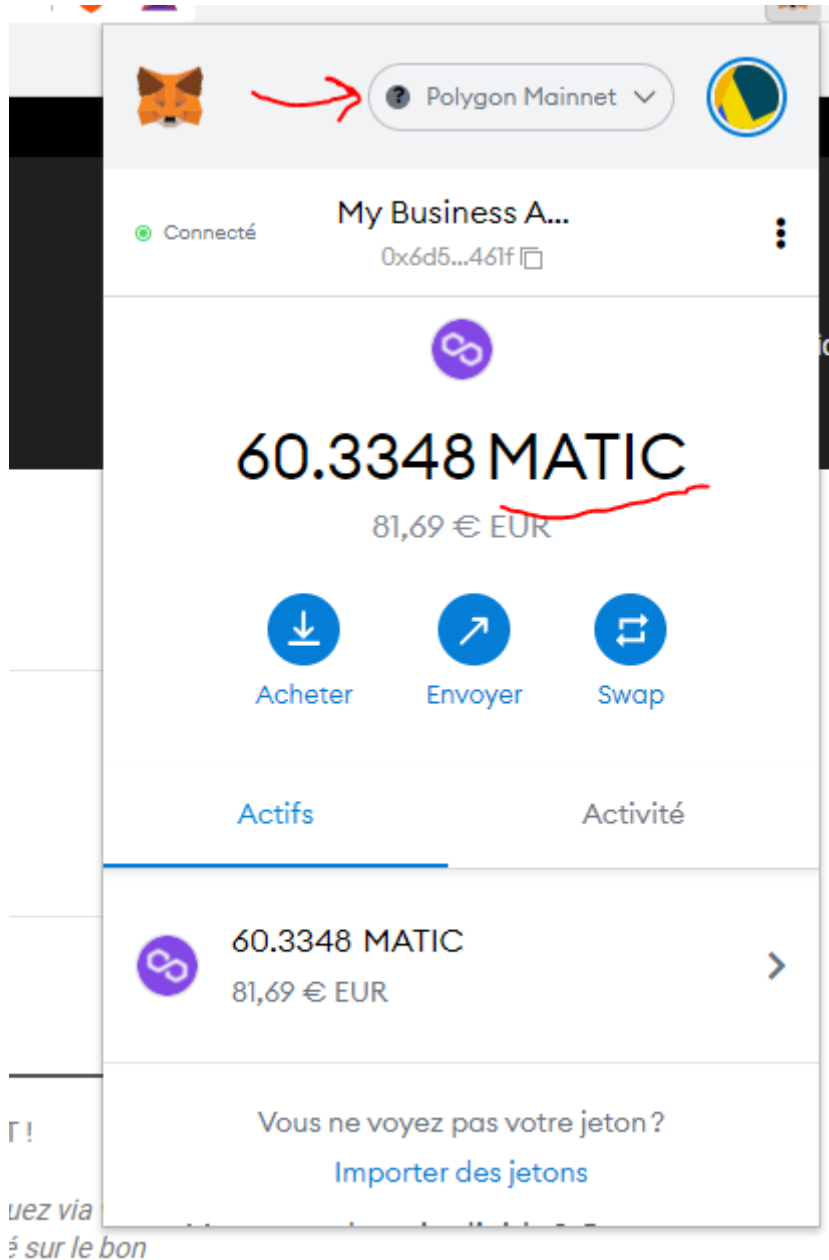

At this stage you can launch the generation (« mint ») of your NFT related to your product.

Click on **Mint me now !** you will be prompted to open and unlock your Metamask.

The screenshot shows a Metamask notification window. On the left, a white box with a green signal icon and the text: 'Please open Metamask and follow the instructions to complete your transaction. The process may take up to 1-2 mn to complete, do not close this popup until then.' On the right, the Metamask notification window itself, titled 'MetaMask Notification', with a 'Bienvenue à nouveau !' message and a 'Déverrouiller' button. Below the button, it says 'ou importer en utilisant la phrase secrète de récupération' and 'Vous avez besoin d'aide? Contactez Assistance MetaMask'.

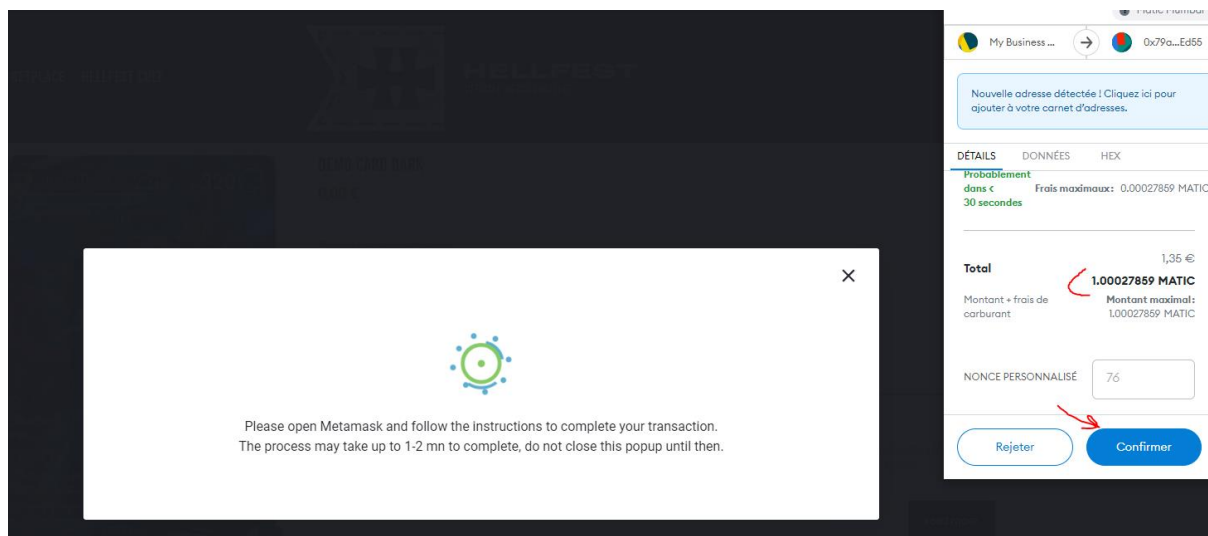

Make sure you are connected to the right Blockchain and account (in this case, Polygon Mainnet), and you have some funds in it (MATIC here).

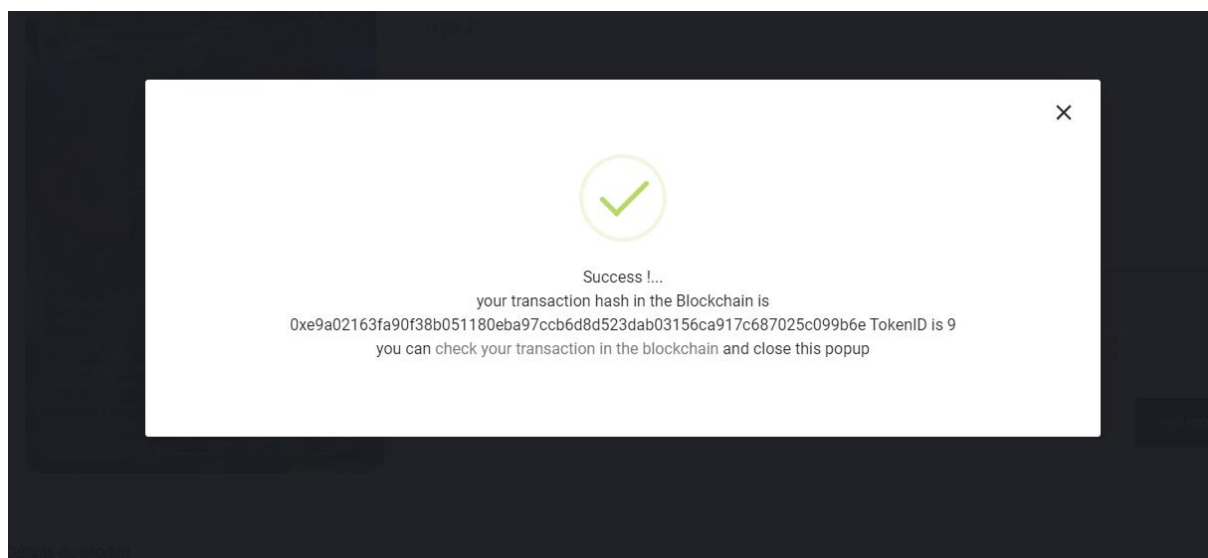

uez via
é sur le bon

When you Mint, you'll be asked to confirm the transaction in Metamask.
A small fee (1 MATIC) is required to Mint the NFT.

Click **confirm** in Metamask.

Then wait until the transaction is validated in the blockchain, that is, until you get this similar popup from the shop.

If you go back to the Product page, you see now this :

The screenshot shows a product page for a 'DEMO CARD DARK'. On the left is a vibrant, colorful illustration of a character with blue and green hair, wearing a white mask, set against a dark background with swirling patterns. The character is labeled 'ルガルガンVmax' and '320'. Below the illustration is a box labeled 'PRESTANFT' and 'HANTEIN'. The product name 'DEMO CARD DARK' is displayed in bold. The price is '0,00 € TTC'. Below the price, it says 'Produit de demonstration'. There is a quantity selector set to '1' and a button 'Ajouter au panier'. Social media icons for Facebook, Twitter, and Google+ are visible. Below that, it says 'VOUS AVEZ MINTÉ UN NFT POUR CE PRODUIT'. A purple circular icon with a white 'E' is shown. To its right, there is text: 'Vous avez déjà minté un NFT pour ce produit. Si vous êtes toujours le propriétaire de ce NFT vous pouvez le vendre sur notre Marketplace Details techniques ci-dessous: Transaction ID : 0xe9a02163fa90f38b051180eba97ccb6d8d523dab03156ca917c687025c099b6e Contract ID : 0x79ae420faE60BEde0f3e4F02bd2B921FB4cEEd55 Token ID : 9'. At the bottom right, there are two buttons: 'go to Marketplace' and 'show NFT data'.

The technical details of your transaction are clickable, they direct you to the blockchain explorer so that you can see the real stuff in the blockchain.

The **Show NFT data** button calls the blockchain and the IPFS storage to show you the actual NFT Metadata. This process may take some minutes, be patient.

The screenshot shows a modal window with a white background and a grey border. At the top center, it says 'COPY OF DEMO PRODUCT BOX'. Below this text is a smaller version of the product box illustration seen in the previous screenshot. Below the illustration, it says 'Produit de demonstration'. In the top right corner of the modal, there is a close button 'X'. The background behind the modal is a blurred version of the product page.

Now click on **Marketplace** button, then click on « My Minted NFTs ».

In this example, we have purchased 4 cards from the shop, but we have minted a NFT for only one of these product. Look closely : **it's Token ID is 9**.

Marketplace. - powered and supported by PrestaNFT modules - Mediaterraneo Consulting

My Minted NFTs	My Purchased NFTs	Sell my NFTs	My NFTs On Sale	Others NFTs On Sale	help
----------------	-------------------	--------------	-----------------	---------------------	------

PRODUCT NAME	BLOCKCHAIN TRANSACTION	TOKEN ID	ACTIONS
Demo Product Box	not minted yet		go to product page and Mint it
Demo Card Dark	0xe9a02163fa90f38b051180eba97ccb6d8d523dab03156ca917c687025c099b6e	9	View Data
Demo Card Steel	not minted yet		go to product page and Mint it
Demo Card Grey	not minted yet		go to product page and Mint it

Now let's say we want to resell it. Click on **Sell My NFT**.

Enter the token ID (9 in our example), and the price you want to sell it (3.25 MATIC in this example).

Then click on **Sell in Marketplace**
